

NEW PRODUCT RELEASE

PERMAGARD™

15 YEAR ROOF COATING SYSTEM

ELASTOMERIC ACRYLIC CERAMIC EXTREME DURABILITY with a 15 YEAR WARRANTY

Sarasota, Florida, July 26th, 2012 - Nationwide Chemical Coating Mfrs. is proud to announce the introduction of another "Green Safe" product, PERMAGARD™ low V.O.C. 15 Year Roof Coating System (less than 150 grams per liter). Designed to be tough and long lasting, PERMAGARD™ maximizes the roofer's efficiency and provides durable, long lasting protection.

PERMAGARD™ is a Matte Finish, Reflective, Bright White, Insulating Ceramic, Elastomeric Acrylic, Waterproofing, Protective Roof Coating. It is a water-based, high build formula that possesses waterproofing, insulating and soundproofing properties that beautifies, protects and extends the life of most any sloped roofing surface. It forms a thick rubber like ceramic shield of protection that expands and contracts with varying hot and cold temperatures, plus has excellent resistance to thermal shock. Unsurpassed in technology, PERMAGARD™ is an energy saving reflective coating that offers superior mildew resistance, ceramic insulation & soundproofing, excellent adhesion, U.V. ray reflectivity and a beautiful matte finish. An energy saving coating that combats the destructive environmental forces of nature. PERMAGARD™ is ASTM D-6083 Compliant and qualifies for a CLASS A Fire Rating Test as per ASTM E84-01, NFPA 101 Life Safety Code. This easy to apply 15 Year Roof Coating System will provide many years of durable protection and outstanding beauty, and will extend the roof's life. PERMAGARD™ is an inexpensive alternative solution to roofing and re-roofing. PERMAGARD™ offers a 15 YEAR LIMITED MATERIAL WARRANTY.

PERMAGARD™ is recommended for well draining, SLOPED roofing surfaces only. Excellent adhesion on weathered wood, shakes, plywood, clapboard, primed metal, galvanized, aluminum, tin, copper, asbestos, asphalt, urethane, polyester, primed styrofoam, fiberglass, built-up-roofs, bonded roof gravel, rolled roofing, modified bitumen membranes, mineral surfaced roofing, concrete tiles, clay tiles, masonry tiles (flat or barrel), primed synthetic or aluminum, adobe, slate, slab, properly prepared EPDM, and various other substrates. PERMAGARD™ is ideal for residential, commercial and industrial applications. For flat roofs or limited ponding water situations inquire about PERMAKOTE PLUS®, Limited Ponding Water Roof Coating.
